CIT 140 · Week 6 · System boundary

Replace prompts. Use W06-S01 for the system, external teams and data crossing the boundary. Keep internal stores on page 2. Add labeled connectors.

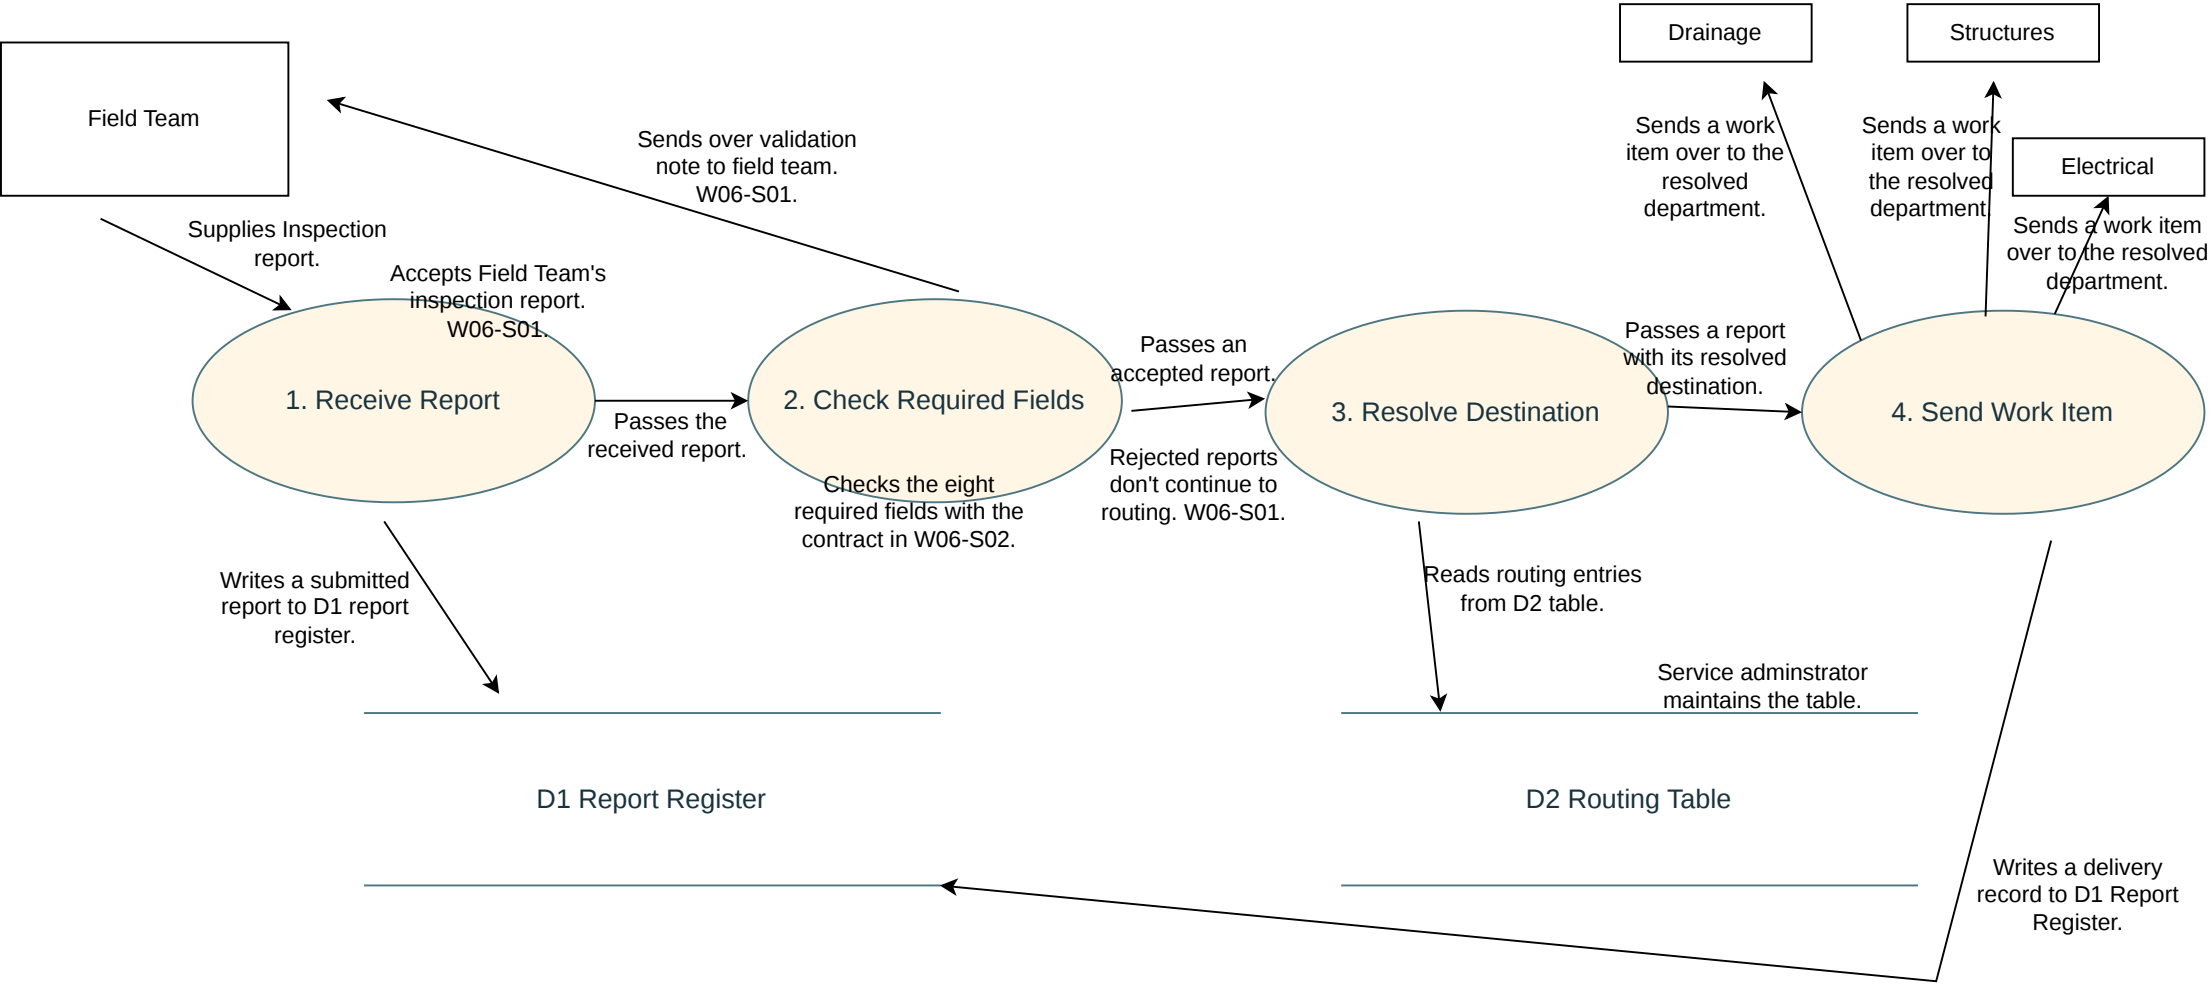

Inside: [The work inside the boundary is the inspection report routing system.]

Outside: [The work outside of this boundary are the flight control, physical inspections and repair work.]

Sources: [Source W06-S01]

CIT 140 · Week 6 · Information movement

Use W06-S01. Connect the four processes, two stores and external teams. Label arrows with data; balance external flows with page 1. The starter positions are a layout aid, not a sequence diagram.

[Add external teams and all data flows supported by W06-S01. Cite the source IDs. Check inputs and outputs for each process.]

CIT 140 · Week 6 · Definitions and finding

Complete every column for the eight fields. Replace prompts with short answers. Use the same fields as W06-S02.

Field	Meaning	Example	Allowed value / format	Source
report_id	Unique report reference.	CJ-601	CJ- followed by three digits.	W06-S02.
asset_id	Reference for the inspected asset.	SL-101	A two-letter prefix and three digits.	W06-S02.
asset_type	Describes the required destination.	STREETLIGHT	One of STREETLIGHT, DRAIN, or BRIDGE.	W06-S02, W06-S03.
finding_code	Describes the supplied code.	LAMP_OUT	One of LAMP_OUT, BLOCKED, or SURFACE_DAMAGE.	W06-S02.
priority	Set urgency within the receiving department. Urgency does not change the department.	ROUTINE	One of ROUTINE or URGENT.	W06-S02, W06-S03.
captured_at	UTC capture time.	2026-10-14T09:00:00Z	Written as YYYY-MM-DDTHH:MM:SSZ	W06-S02.
photo_ref	Fictional attachment reference.	IMG-601	IMG- followed by three digits. No image files are supplied.	W06-S02.
survey_area	Fictional areas not coordinates.	NORTH	One of NORTH, CENTRAL, or SOUTH.	W06-S02.

Finding: A report whose observed destination differs from policy is report CJ-603. The policy stated BRIDGE and that it should be going toward the Structures department, as observed from W06-S02 and W06-S03. However, the observed delivery in the delivery log of W06-S04 stated that it was received by Electrical.

Unanswered question: What would help explain as to why some of the reports expected destinations differs from the actual destination in the observed deliveries log of W06-S04?
